

IMPORTANT NOTICE

PLEASE PARK ON ADJACENT UNPOSTED STREETS

An asphalt emulsion sealer and rejuvenator (GSB-88®) will be applied to your street. This economical pavement preservation treatment prolongs the life of the existing asphalt pavement by reintroducing oils and resins that have been lost to oxidation, erosion from water, and traffic. Timely preventative maintenance like this delays costly street rehabilitation into the future.

Due to the number of streets scheduled, we cannot tell you the exact time your street will be done. We realize the inconvenience caused by limiting access to your street. Please understand the inconvenience caused by this pavement maintenance is very small compared to a rehabilitation project.

Driving or walking on this newly applied material before it has cured will damage the street and stick to your shoes, be splattered onto your car, and will track onto concrete driveways. The material is adhesive, but can be removed from the vehicles with products available at local auto parts stores. Read and follow the directions.

Asphalt emulsion sealer and rejuvenator will be damaged by sharp turning during the curing phase, specifically power steering turns. This can be avoided by making wide turns. Always be sure the vehicle is moving before turning the steering wheel.

Weather considerations may cause schedule changes. If your street is not done due to weather or other reasons, you will be notified again as to the new date.

**Thank You
for your Cooperation and Patience**

FAHRNER ASPHALT SEALERS, LLC

IMPORTANT NOTICE

We're **FAHRNER ASPHALT SEALERS LLC**, and your street is scheduled to receive a pavement preservation treatment.

The process is called **GSB-88® PAVEMENT SEALER AND REJUVENATOR** and we need your help!

WITH YOUR COOPERATION it will be possible to complete this work quickly and with a minimum inconvenience to you.

IT IS THE RESPONSIBILITY of the contractor to see that no through traffic enters the work area. We ask that you do not drive through the wet asphalt emulsion in or out of your driveway.

NO PARKING AFTER :00 A.M. SORRY FOR THE INCONVENIENCE

Your street will be closed to all traffic or limited to one lane on

MON TUES WED THURS FRI SAT SUN

The _____ of this month

Since parking on the street will be prohibited on this date, **PARK YOUR CAR ON AN ADJACENT NON-POSTED STREET** prior to the above time so that you will not be deprived of its use. **PARKED CARS ON A POSTED STREET WILL BE TOWED.** You will not be allowed to drive on your street until the surface dries.

Please do not water your lawn during this period or discharge water into gutters during this period.

UNDER NORMAL WEATHER CONDITIONS your street should be back in service by :00 P.M. Work not done because of wet weather or circumstances beyond our control will most likely be rescheduled the following day.

**THANK YOU FOR YOUR COOPERATION
