

## **OFFICIAL NOTICE ADVERTISEMENT FOR BIDS**

Notice is hereby given by the **Town of Oregon**, Dane County, Wisconsin, will receive sealed bids for Road Construction as listed in this request until 9:00a.m.on Wednesday, April 28, 2021, in the office of the Town of Oregon, located at 1138 Union Rd, Oregon, Wisconsin 53575.

Bids will be publicly opened and read at the Town hall at 9:00 a.m. on Wednesday, April 28, 2021.

Discussion and a decision will be voted on by the Town Board on Tuesday May 4, 2021.

Contract documents may be examined at and questions asked at the Town of Oregon office, 1138 Union Rd, Oregon, WI. 53575, 608-835-3200

### **Roadway Seal Coating**

A Performance Bond in the amount of 100 percent of the total bid price, a Certificate of Insurance, together with an executed contract, will be required of the successful bidder.

The owner requires that contractors provide a complete bid that includes all material, supplies, tools, labor, equipment, other services and incidentals necessary for a complete and finished project.

Owner will forward a payment when the project is complete and the work is acceptable to the owner according to the specifications as stated. Any deviation from the specifications or sub-standard work by the contractor will mandate that the contractor repair or rework the road at the contractor's expense.

The owner requires that contractors assume an affirmative duty to notify the owner of errors in the plans and specifications.

The owner requires bid responsiveness, i.e., the bid must comply with all material requirements of the bid invitation and specifications. The owner reserves the right to reject non-responsive bids.

The owner reserves the right to select any bid portion individually. The owner reserves the right to reject any or all bids.

The contractor shall verify any and all roadway lengths and widths and provide bid based on actual field dimensions and conditions.

April 16, 2021

Jennifer Hanson, Town of Oregon Clerk

## S-1

### **SPECIFICATIONS**

#### **GENERAL**

All contracting procedures work and materials supplied under this proposal shall conform to the Standard Specifications for Highway and Structure Construction, 2003 edition of the Wisconsin Division of Highways, Department of Transportation. The special provisions in this proposal shall supplement and take precedence over the above-mentioned specifications.

The Town of Oregon, Wisconsin is the issuer of this bid proposal, shall hereinafter be referred to as "the owner".

#### **PERFORMANCE BOND**

Successful bidders shall furnish the owner with a performance bond equal to 100% of the contracted amount.

#### **INSURANCE**

The contractor shall furnish and deliver to the owner a certificate of insurance for worker's compensation and an umbrella certificate of liability and property insurance in the minimum amount of three million dollars before beginning work, and shall notify the owner immediately of any cancellation or change in insurance coverage.

#### **TRAFFIC CONTROL**

The contractor will be responsible for all traffic control, including furnishing and maintaining all signs, flags, flag-persons, barricades and lights where required, to protect the safety of the traveling public, all in accordance with the Manual on Uniform Traffic Control Devices currently adopted by the FEDERAL HIGHWAY ADMINISTRATION and the WISCONSIN DEPARTMENT OF TRANSPORTATION supplement.

#### **COMPLETION**

All work is to be completed prior to October 15 of contract year.

## **S-2 "CHIP" SEAL COAT**

Chip seal coat shall be in conformance with section 475, WisDOT Standard Specifications. This item shall consist of supplying and placement of a single application asphalt seal coat with cover aggregate to a previously completed pavement surface in accordance with the specifications and as shown on the plans or established by the owner.

Immediately prior to applying the asphalt material, the existing surface shall be thoroughly cleaned of all loose material, dust, salt, vegetation and other objectionable material. Particular care shall be taken to thoroughly clean the outer pavement edges and intersections.

Asphalt used for chip seal coat shall be compatible with cover aggregate, applied in a uniform and sufficient quantity to seal the pavement surface and bond cover aggregate to seal coat surface. The asphalt distributor shall have instrumentation and controls to monitor and alter the asphalt application rate and temperature. A hose and nozzle attachment to the distributor shall be used for hand application to inaccessible areas.

At the desired stage of tackiness, the cover aggregate shall be applied uniformly over the asphalt material. The aggregate shall be immediately rolled with pneumatic tire rollers until thoroughly embedded in the asphalt material.

Traffic control shall be provided by the contractor to maintain safety, minimize distress to the fresh asphalt seal coat and allow access to property during construction and curing.

The seal coating would require Emulsion oil, 3/8" fractured, washed pea stone. Full width on the application of both oil and aggregate. Recommend the best product to avoid oil break thru causing auto damage reports.

All measurements are approximate.
